As increased regulatory scrutiny and labor availability fluctuations continue to affect the construction industry, companies require CPAs and advisors who understand the landscape and can help them remain profitable in the midst of constant change.

CRI delivers a broad range of accounting services to construction clients of all sizes – both contractors and subcontractors including electrical, HVAC/plumbing, and roadbuilding. We advise clients regarding strategies to maximize their bonding capacity, plan tax savings, and enhance working capital. Plus, our team stays up-to-date on timely business topics through our memberships with Associated Builders and Contractors (ABC), the Construction Financial Management Association (CFMA), and other industry organizations.

We are also adept at using the latest technology to meet our clients' most critical business needs. The **CRI virtual Smart Tech Audits & Reviews (vSTAR)™ process** allows us to virtually conduct audit engagements and offer clients access to our specialists regardless of location. In turn, clients have the opportunity to reduce travel costs and increase time efficiencies.

Benefit from our construction-specific services including:

- **Contractor Licensing (Multi-state).** Using our vast knowledge of state requirements, we help clients evaluate their positions and cost-effectively secure licenses.
- **Working Capital/Bonding Enhancement.** We advise our clients regarding how to plan around project changes to best maximize their working capital.
